

Lower Limb Wound CARE Programme

For primary and community care colleagues

The programme modules will include:

1. A Population Health based approach to improving wound care outcomes in your community
2. Identifying need and creating better joined up care
3. Influencing change
4. Why effective integrated team working is essential
5. Leadership and creating the momentum for change
6. Innovation in Practice

Dates:

Monday 30th March, 09:00-12:00

Tuesday 31st March, 09:00-12:00

Delivery:

Virtual (Microsoft Teams)

Cost:

Funded by NHSE

Register interest:

care@napc.co.uk or complete [this form](#)

- Applicants to be working or supporting wound care
- CPD accredited attendance

As part of the Lower Limb Wound CARE Programme, the participant will be expected to identify, develop and deliver an innovation project and complete a case study. This can vary from managing a patient with a specific condition to enhancing service improvement and will be supported by the CARE programme team.

Deadline for application is

Monday 2nd March
