#### NHSE Prescribing Infrastructure Project

The North West London Training Hub have been asked to undertake a piece of work in relation to Mapping and Training of current and prospective Designated Prescribing Practitioners (DPPs) and Designated Supervisors (DS) by NHS England WT&E colleagues.

This piece of work will help to inform and build on capacity for Foundation Pharmacist Learning and Independent Prescribing Programmes across different parts of the NHS London system. [Clinical Pharmacist Designated Prescribing Practitioner Support Document](#)

If the relevant Healthcare Professionals could complete the linked survey below, which should take approx. 10 mins maximum, if you have been or wish to be a DPP/DS – This includes Pharmacists, GPs, Nurses, Paramedics and other roles who are Independent Prescribers. <https://form.typeform.com/to/qjKGGdKQ>

#### Oliver McGowan Mandatory Training - Part 2

The Oliver McGowan Mandatory Training on Learning Disability and Autism is named after Oliver McGowan, whose preventable death highlighted the urgent need for better training across health and social care. Under the Health and Care Act 2022, all CQC-registered providers must ensure their staff receive learning disability and autism training that is appropriate to their role. Oliver McGowan Mandatory Training (OMMT) is the government's preferred and recommended autism and learning disability training for healthcare staff. Which tier of training you need to attend will depend on the nature of your role and how much you interact with patients. Ultimately your employer is responsible for confirming which tier is appropriate for your role. Both tiers are required to undertake two parts to complete this training, the parts are outlined below;

**Tier 1**  
This applies to staff with **indirect or occasional contact with patients**, i.e. non-patient facing roles.

**Part 1:** eLearning module which is live on eflh or NWL Learning Hub.  
**Part 2:** A 1-hour online interactive session co-delivered by a person with a learning disability, an autistic person, and a facilitator.

**Tier 1, Part 2** – various dates and times from 31<sup>st</sup> March [book here](#) £7 per person\*

**Tier 2**  
This applies to staff with **regular or direct contact with patients**, i.e. patient facing roles. This include all staff who provide care, support or make decisions, this is not limited to clinical roles.

**Part 1:** eLearning module which is live on eflh or NWL Learning Hub.  
**Part 2:** A 1-day face to face training co-delivered by a person with a learning disability, an autistic person and a facilitating trainer

**Tier 2, Part 2** – various dates from 23<sup>rd</sup> April, in person [book here](#) £40 per person\*

\*We are delivering this training using a cost-sharing approach. This enables us to support wider staff participation across the system, maintain a high standard of training delivery, and ensure we meet national requirements.

This year, the Training Hub is able to cover 50% of the training cost to widen access.

Please note that future funding from NHSE/ICB is not guaranteed, so employers may need to fully fund places in subsequent years.

#### Healthcare Central London's Adult ADHD Right to Choose service is now live and accepting eRS referrals.

The service provides:

- Comprehensive adult ADHD assessments in line with NICE guidance (NG87)
- Diagnostic reports shared with the referring GP (with patient consent)
- Medication initiation and titration where clinically indicated

As a newly mobilised service, our wait times are currently extremely low, and we encourage you to submit referrals as early as possible so your patients can benefit before demand increases. Please also remind patients to complete and return their assessment forms promptly, as this is essential to getting assessments booked in before wait times increase.

Our consultant-led, evidence-based ADHD assessment and treatment pathway meets national standards, with virtual and face-to-face appointments available.

More information, including the referral letter, is available on the [website here](#).

If you have any questions about the process or service model, please contact [hcl.adhd@nhs.net](mailto:hcl.adhd@nhs.net).
