CPD Funding for Practice & PCN Managers

This funding aims to support the ongoing development of leadership, management and operational capability to ensure practices and PCNs are well-led, sustainable and able to deliver a high quality of care to patients. Maximum of £1,500 per PCN, inclusive of VAT.

Examples of suitable programmes include:

- NHS Leadership Academy programmes
- ILM/CMI leadership qualifications
- HR and workforce development training
- finance and contract management courses
- quality improvement and governance programmes
- project and change management qualifications
- digital transformation or data analytics training
- Choose from Digital skill courses provided by the [Knowledge Academy](#)

Submission deadline for applications 31st October 2026. Please get in touch with Eve Costello evcostello@nhs.net for application details.

October is Speak Up Month

When people feel safe, supported and heard, they can raise concerns, share ideas and help make care safer, more inclusive and higher quality — while creating a better experience for staff too. Find out how [HERE](#)

FTSU Training

Speaking up is everyone's responsibility. This Autumn put speaking up firmly on your agenda. Please find attached to this newsletter email a document setting out the training process, both to become a FTSU Guardian or to simply become a FTSU Champion.

The FTSU training is mandatory for staff appointed to the Freedom to Speak Up Guardian or Champion role in healthcare organisations. Please contact us for any assistance.

Minimum Requirement: All PCNs and practices should have a Champion.

Host a trainee Practice Nurse:

A valuable opportunity for your practice, offering benefits for both the team and patient care. By welcoming a trainee GPN, the practice is investing in its workforce, supporting the development of future GPNs and helping to build a skilled, motivated team for the future. Practices or PCNs will receive **additional income of £20k**, helping to support the costs associated with training and supervision.

Peer Support and Action Learning Set Training

Creating positive spaces for peer support, shared learning and reflection

Action Learning Sets provide a supportive and confidential space for colleagues to share challenges, learn from each other's experiences, and gain fresh perspectives and practical support.

This training programme will equip participants with a simple, practical framework to facilitate effective peer learning groups and create an environment where colleagues can think at their best.

The programme includes:

- **One full-day session via Zoom** to explore how to create the right environment for effective peer support and learn practical facilitation techniques.
- **A half-day follow-up session two months later** to reflect on experience, build confidence and consolidate learning.

Who should attend?

All roles, Clinical and non-clinical, practice & PCN.

Places are limited. Participants must have the opportunity to put their learning into practice.

By the end of the programme, participants will be able to:

- **Create a supportive environment** that enables everyone to think at their very best
- **Identify the right questions**, reflect and improve support they provide to clients
- **Recognise value of independent thinking** in developing confidence and solutions
- **Facilitate/participate in Action Learning Sets** to support their's & others' learning
- **Establish a safe and confidential space** where colleagues can openly share

Evaluation of the sessions by NHSE reveals several key insights and benefits:

- Significant improvement in participants' skill levels - particularly in coaching, managing difficult conversations, and developing direct reports.
- Improved Confidence and ability to handle complex issues: find innovative solutions, develop plans, and deal with problems when they couldn't always find a solution.

FINAL REMINDER

Addressing systemic discrimination

We are hosting free development sessions to support GP practices and PCNs to reduce inequalities across the cancer pathway, with a focus on how poverty & racism impact outcomes.

The sessions delivered by the Health Innovation Network South London and brap will help primary care professionals address healthcare inequalities, which can improve early diagnosis and care and address healthcare inequalities across all patient groups.

Sessions aim to help participants:

Explore how poverty & racism impact outcomes, in particular for cancer

Interrogate the factors that contribute to these outcomes (with a focus on poverty & racism)

Reflect on what you can do in your role to take responsibility for addressing differential outcomes and experiences.

Half-day Sessions – book here:

- Tuesday 24 November 2026: NWL Location: The Irish Cultural Centre in Hammersmith, 5 Black's Rd, London W6 9DT <https://wkf.ms/4eZphqY>
